PROFILE

Final-year Software Engineering undergraduate with hands-on experience in web development, desktop applications, and database systems. Skilled in building e-commerce platforms, inventory management systems, and RESTful APIs. Passionate about solving problems through technology and eager to contribute as a software engineering intern

PROJECTS

HomieMart – E-commerce Website | HTML, CSS, JavaScript, PHP, MySQL

- Built a responsive e-commerce platform with product listings, shopping cart, and checkout system.
- Implemented role-based dashboards (Customer, Seller, Admin) with product management features.
- Added chatbot functionality for customer support.

TechFix – Inventory & Procurement System | C#, SQL Server, RESTful API

- Developed a Windows Forms application integrating supplier and admin systems.
- Automated procurement with real-time stock tracking and quotation requests.
- Implemented low-stock alerts and secure database integration.

Gallery Café Website | HTML, CSS, JavaScript, PHP

- Created a web platform for online menu browsing, reservations, and image gallery.
- Designed an admin panel for menu updates and customer management.
